Dental Blue gives you the power to choose

Something to smile about

With four Dental Blue Individual and Family plans for you to choose from, we're confident you'll find the one that's right for you. Plan benefits, premiums and coinsurance amounts vary, however, all offer:

- Three dental networks, with more than 20,000 participating dentist locations in California to choose from
- Dental specialists within all networks
- Deductibles that are waived for covered in-network cleanings, exams and X-rays
- No copayment for covered in-network preventive and diagnostic services, including cleanings, exams, X-rays and sealants
- No claim forms or paperwork to deal with when visiting an in-network dentist
- The choice of seeing dentists outside of the Dental Blue network, however, you may save more money when you visit a dentist within the Dental Blue network
- Savings on popular non-covered services such as porcelain veneers, dental implants, TMJ and orthodontics

And no referrals are needed!

The advantages don't end there – Save during waiting periods and even after you have reached your annual maximum

Even if you reach your annual maximum for the year, you'll still save because you pay our negotiated fee instead of the dentist's full price for dental services. The same applies during any waiting periods you may have under your plan or for non-covered services such as porcelain veneers, dental implants, TMJ and orthodontics. As long as you're a Dental Blue member, the dentists and specialists in the Dental Blue networks will extend the special rates we have negotiated with them to you.

The beauty of the Dental Blue three-tiered network

No matter which Dental Blue plan you choose, you can see a dentist or specialist in any of the Dental Blue networks and still be considered "in network." You also have the freedom to visit a dentist outside of our Dental Blue network should you decide to do so. However, you may save the most money when you visit a dentist within the Dental Blue network that you selected.

You're protected from balance billing – meaning you'll never pay more than the Dental Blue negotiated rate for covered services – when you visit any dentist in the Dental Blue network.

Which plan is right for you?

Dental Blue 100 Basic highlights

- The lowest plan premiums of the four Dental Blue plans
- The lowest annual deductible of the four Dental Blue plans
- No coverage for Major Services (including oral surgery, endodontics, periodontics and prosthodontics) however as a Dental Blue member, you will still have access to our negotiated savings for non-covered services when visiting a Dental Blue dentist
- Immediate benefits – there are no waiting periods
- In-network benefits when seeing any Dental Blue 100, 200 or 300 dentist, but savings are typically greatest when seeing a dentist in the Dental Blue 100 network

Dental Blue 200 Essential highlights

- Annual deductibles apply for up to three family members maximum
- There is a higher maximum benefit per year than with the Dental Blue 100 Basic plan
- Major Services are covered and include oral surgery, endodontics (root canals, crowns), periodontics and prosthodontics
- You remain in network when you see a Dental Blue 100, 200 or 300 dentist, but savings are typically greatest when seeing a dentist in the Dental Blue 100 or 200 network
- There are waiting periods for covered Basic and Major services

Dental Blue 100 Plus highlights

- Cost sharing is more predictable since in-network benefits are paid based on a percentage of the negotiated rates
- You are covered for Preventive, Basic and Major dental services
- You can see any Dental Blue 100, 200 or 300 dentist while remaining in network, but savings are typically greatest when seeing a dentist in the Dental Blue 100 network
- Waiting periods apply for Major Services only

Dental Blue 200 Plus highlights

- Benefits are comparable to those in the Dental Blue 100 Plus plan while premiums are slightly higher due to your ability to access greater savings when seeing a Dental Blue 200 or 300 network dentist
- You remain in network when you see a Dental Blue 100, 200 or 300 dentist, but savings are typically greatest when seeing a dentist in the Dental Blue 100 or 200 network
- There are waiting periods for covered Basic and covered Major Services

Medically necessary services or treatments are those which are ordered by the attending dentist for the direct care and treatment of a covered condition. If there is a dispute or substantial uncertainty as to whether benefits may be recovered for those conditions pursuant to worker's compensation law or similar law, we will provide the benefits of this plan for such conditions, subject to the right to a lien or other recovery under section 4903 of the California Labor Code or other applicable law.

*Any services you actually received that were provided by a local, state, county or federal government agency including any foreign government, except when payment under this Policy is expressly required by federal or state law. This Policy will not cover payment for these services if you are not required to pay for them or they are given to you for free. *Excess Amounts: Any amounts in excess of the dental benefit maximums and yearly Maximum Benefit stated in this Policy. The Covered Expense for all Covered Services includes the administration of any local anesthesia and the provision of infection control procedures as required by state and federal mandates. If billed separately, such charges will be denied.

*Procedures requiring appliances and restorations (other than those for replacement of structure loss from tooth decay) that are necessary to alter, restore or maintain occlusions. These include, but are not limited to:

- Changing the vertical dimension.
- Replacing or stabilizing lost tooth structure by attrition, abrasion, abfraction, erosion or bruxism.

Fixed bridges are covered only when:

- The bridge is replacing teeth that were extracted after the insured's effective date; and
- The total units required to replace all missing teeth is six units or less in an arch (arch means maxilla or mandible); and
- The bridge or bridges consist of no more than six units total in an arch. (Each abutment is a unit and each pontic is a unit in a bridge.) Coverage for fixed bridgework that includes more than a total of six units is limited to the amount this policy would pay for a removable partial denture

Temporary and interim prosthetics (temporary crowns, bridges, partials, dentures, etc.). Temporary services are considered an integral part of the final services rather than a separate service, and are therefore not eligible for benefits.

*Implants: Materials implanted into or on bone or soft tissue and all adjunctive services (including, but not limited to, surgery, prosthetics placed on implants, cleanings, maintenance, etc.) performed in conjunction with the placement or removal of implants

**Statement of Understanding for Areas 2, 3, 10, 11 and 12 (counties with limited availability - see pages 12 and 13.)
 I understand the difference between a Participating Dentist and a Non-Participating Dentist, and would like to apply.
 I know that I probably will not be able to use a Participating Dentist and that I will probably pay more for dental care. When I use Non-Participating Dentists, I will pay the difference between the limited benefit that the plan pays and the actual charge by the Non-Participating Dentist. This means that I may be responsible for a larger portion of my dental bills.**
